

Recycled glass fiber for reinforced plastics

■ Recycled glass fiber via mass balance approach 【Launched】

- ◆ 100% recycled product via mass balance approach
- ◆ Easy switching from conventional glass fiber products
- ◆ Contributes to reducing CFP compared to conventional products
- ◆ Offering almost all of our product lines, including our specialty products

■ Recycled glass fiber from solar panel waste 【Sampling】

- ◆ Post consumer recycled glass fiber from meaningful feedstock
- ◆ Specialized surface treatment & accurate recycle ratio to guarantee the composite properties
- ◆ Better economic sense than recycle scheme from FRP/FRTP (Closed Loop)
